

Montgomery County House Districts

In Montgomery County we again find Democrat voters squeezed into two heavily Democratic districts of low compactness with large black populations: HD 38 with a C.I. of 18.4 and HD 39 with a C.I. of 12.3. The remainder of the county, plus half of adjacent Miami County, is then divided among four safely Republican HDs. HDs 38 and 39, along with safely Republican HD 43, make up SD 5, a safe Democrat SD of low compactness (C.I. = 16.3). HDs 40, 41, and 42 make up SD 6, a safe Republican SD of low compactness (C.I. = 18.2). With districts like these some citizens must wonder what's the point in voting?
