

## House District 30

### 1971 Apportionment Board (Democrat) Plan

The "hole" in HD 28 enabled the creation of HD 30, a "white" inner-city district that had a C.I. of 15.5---the second lowest of this plan. It elected Democrat Mike Stinziano throughout the 1970s. Stinziano was one of the earliest advocates of districting reform in the Ohio legislature. Then he lost interest. But ultimately, discretionary districting helped do him in---when the discretion was given to Republicans.
