

PASS H.J. RES. 28: THE RIGHT TO VOTE AMENDMENT

Return petitions: FairVote: Right To Vote Initiative 6930 Carroll Ave Takoma Park, MD 20912

We, the undersigned, support H.J. Res. 28 a proposed amendment to the U.S. Constitution to add a right to vote. We call on Congress to pass this needed amendment.

Contrary to popular belief, the ability to vote is not a right of citizenship. As a result, each state sets its own electoral policies and procedures, producing separate and inherently unequal standards. This has led to the voting irregularities such as poor ballot design, deficient equipment, miscounted ballots, intimidation and fraud that voters experience in every election. A right to vote amendment would empower Congress to set national electoral standards that would ensure that each U.S. citizen is able vote and have that vote recorded accurately.

A right to vote amendment would be the foundation of support for ongoing efforts to establish fair, efficient and accurate elections for all.
